Affordable for All

At KIOT, we believe that high-end technology must be affordable for all. With our flagship offering, KIOT Smart Home we aim to make this dream a reality. The smart home comes with features that let you add smart capability to your home appliances without replacing any of their existing set-up, at the same time adding an extra layer of security to your home.

Equipped with an app that lets you control your smart home from anywhere in the world, KIOT Smart home truly is a stepping stone for anyone who wants to savor the experience of living in the future.

Features

Control from Anywhere

Control all appliances in your home from anywhere in the world.

Comfort and Convenience

Switch on/off appliances anytime from anywhere. No more worries about hassles at home.

Tighter Security

Monitor your home on the go. Set virtual locks on every room that'll smartly notify about any intrusion.

Live Power Tracking

Monitor hourly and daily power consumption at home in real time to help save more power.

Timing Set-up for all Devices

Set timers on any device, from light bulbs to water pumps.

Lighting Options Tailor made for you

Set custom light settings than turn on with a single tap to suit different moods- like movie night, party scene etc.

Smart Entertainment Control

Control all IR remotes with just the smartphone. Give a smart makeover to your DTH TV with new capabilities.

A Mobile App for the Beloved Master

Have complete control over the smart home with your phone. Keep an eye on your home from anywhere in the world.

The Voice Assistant

Your home's new best friend: With Amazon echo or Google assistant, use your voice as a remote to control all your appliances.

More Intelligence to your Appliances

Let your appliances customize their actions for you, without you having to play with the remotes all the time.

Mobile **Application**

Seamless User Experience

The app windows easily switches between home, switches and remote tabs to enable an effortless user experience.

Power Tracking Tab

The power tracking tab on the home dashboards displays your hourly and daily power consumption in real time.

Set Schedules & Routines

Set your appliances to power on/off at preset timings, create routines for a set of appliances so they can operate in sync without manual operation.

Lock Room Capability

This feature lets the user lock any room in the house via the app, so that he'll be notified of any intrusion immediately.

Option to share home access

Share your smart home app access with all other members of your home

Scenes

Customize your appliances to create theme based scenes for you whenever you want them to. Ex: evening scene, birthday scene etc.

Workflows

Let your appliances make intelligent decisions based on their surroundings. Ex: Your AC automatically switches on when the room temperature reaches 30 degree Celsius.

Create auto-turn off timers

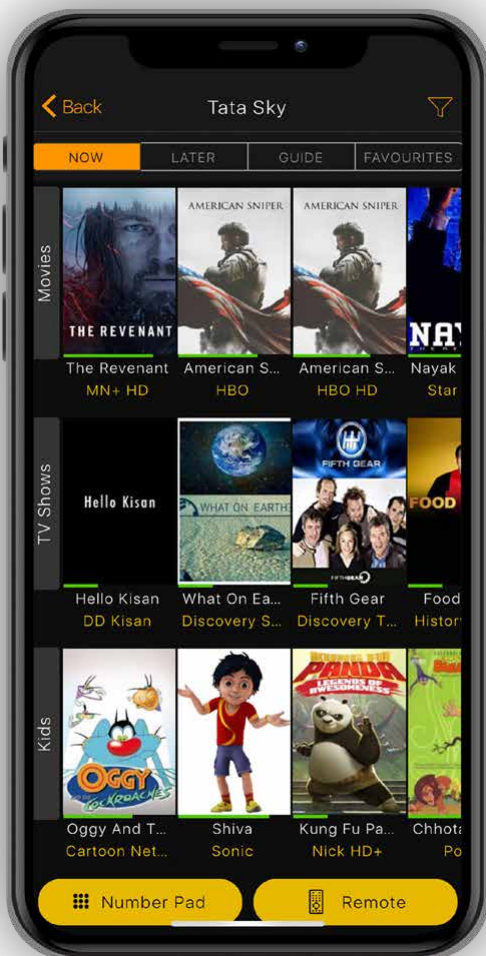

Set timers on your appliances so they only work for the required duration.

Remotes

Use your app as a substitute remote for all your physical IR remotes. Create custom remotes and default remotes

Inapp Entertainment Guide

Access your TV guide inside your app. Set favorites, reminders, access streaming links on your favorite channels and programs.

VOICE INTEGRATION

Control your smart home with even greater ease. Use your **Google Assistant** or **Amazon Echo** product to operate your appliances with just your voice!

"Hey **Google**, Turn on AC"

"**Alexa**, Turn on Geyser"

"Hey **Google**, Turn off AC"

"**Alexa**, Turn off Geyser"

SWITCH

Price: ₹4,200 - ₹4,800*

The KIOT Switch comes in 3 variations – 3 switch, 4 switch, 5 switch. Every switch contains a fan dimmer control along with normal switch controls. It is packed with an attached sensor strip. This switch allows you to control all common home appliances via the KIOT Smart Home app. It also contains a power measurement circuit for displaying live power consumption data of connected appliances in real time.

Features

- ★ Easy to install - can be finished in less than 15 minutes.
- ★ In built surge protector to protect your appliances from both high and low voltages.
- ★ Retrofit module – No need to modify the existing wiring set-up. The KIOT switch can be installed keeping the existing switches and wiring intact (No modification needed for two way switching also).
- ★ It works perfectly with manual switching also.
- ★ Comes with built-in dimmer for fans and dimmable LEDs. They can be used just like regular dimmers.
- ★ Integrated with Google Assistant and Amazon Alexa to provide voice control over appliances.
- ★ Can communicate over Wi-Fi and works with/ without internet.
